1. General

1.1 Preliminary note

Client

Prime Office A/S
Skt. Knuds Torv 3,3
DK-8000 Aarhus C

Order date

The Client engaged the undersigned to prepare this written 3rd post evaluation on 05/11/2024.

Purpose of the opinion

Determination of the market value of the property with an office and retail property at the address D-23552 Kiel, Walkerdamm 1, Hopfenstraße 71 as of the valuation date 31 December 2024.

Special Note

The Inflation in Germany is expected to average 2.2% in 2024 (as of 7 January 2025). The past year was characterised by the ongoing geopolitical uncertainties in Ukraine and the Middle East as well as the economic recession caused by weaker exports and falling investments. From July 2022 to September 2023, the ECB raised the key interest rate in ten steps by 450 basis points. From June to December 2024, there were four cuts totalling 135 basis points. The German property market showed signs of recovery in 2024 with a slight increase in transaction volumes, particularly in the residential property sector. Nevertheless, geopolitical uncertainties and economic conditions remain factors that can influence future developments. Prices and yields have largely stabilised at the previous year's level.

Property-related documents and information obtained by the contractor

- Real estate market report 2024, Kiel valuation committee
- Investment locations Germany 2023 office - rents and yields, Catella
- Real estate price index 2024, IVD-Nord
- Market report II/2024, Otto Stöben
- Office investment market and office leasing market Germany 2024, NAI Apollo
- Retail purchasing power index, IZ Research database
- Retail centrality index, IZ Research database
- Unemployment rates for November 2024, Federal Employment Agency
- Population forecast of the Bertelsmann foundation
- Market report 2024/2025, DAVE

Documents provided by the client

- Order letter (by mail)
- Rent roll, dated 1st December 2023
- Appraisals update (31.12.2021), 14.01.2022
- Appraisals update (31.12.2022), 12.01.2023
- Appraisals update (31.12.2023), 15.01.2024

1.4 Site visit

The last on-site inspection (inspection of the object of valuation and its immediate surroundings by the appraiser) took place on 05.12.2024.

1.5 Basis for the determination of the market value

The market value is determined in accordance with § 194 BauGB. The central concept of value in the English "Red Book" and the "Blue Book" of TEGoVa (The European Group of Valuer Associations) and the IAS (International Accounting Standards) is the market value, which corresponds in terms of content to the fair value in accordance with § 194 BauGB. The market value of investment properties is derived worldwide from procedures with discounted cash flows. The national methods used for this purpose are generally comparable with each other and produce the same results.

The present market value is determined in accordance with the principles of the Real Estate Valuation Ordinance of 14 July 2021 (ImmoWertV, BGBl. 2021 I No. 44) on the basis of the capitalised earnings value method (§§ 27 to 34 ImmoWertV).

The revaluation is based on the initial valuation report and the subsequent revaluations, most recently as at 14.09.2021. The textual descriptions in this report are therefore largely limited to factual and value-related changes that have occurred compared with these valuations. The requirements set out therein are still to be observed and form an integral part of this revaluation.

The following revaluation is based on the above-mentioned documents. The documents provided by the client were used as a basis for the valuation after a rough plausibility check and without being checked as correct and complete. The areas and number of parking spaces provided by the client have been taken over by the expert after a rough plausibility check as correct from the submitted property documents, so that the values determined below are thus expressly subject to any circumstances or proportions to the contrary.

Findings were only made to the extent that they are relevant for the valuation. No liability is accepted for unrecognisable or concealed defects, for defects in building components that have not been made accessible and for other features of the property that have not been ascertained (e.g. investigations into stability, sound and heat insulation, infestation by animal or plant pests, building components contaminated with pollutants, and soil contamination) is excluded. The inspection of the technical installations and facilities with regard to their functional capability and serviceability is not the subject of the assignment. Production costs shown in this valuation generally do not correspond to the insured value (cf. e . g. Simon/Cors/Halaczinsky/Teß: Handbuch der Grundstückswertermittlung, 5th edition, Vahlen 2003).

The following valuation is expressly subject to these conditions and assumptions.

2 Office- and retail property

2.1 Valuation object

No changes to the valuation object compared to the previous valuation were reported, so that unchanged conditions are taken as a basis.

2.2 SWOT analysis

Strengths

- good visibility
- almost fully let

Weaknesses

- B-Location for retail use

Opportunities

- increasing population structure

Threats

- general market risks

2.3 Changes in value-determining

Characteristics Land register and cadastral information

No changes to the land register and cadastral information compared with the previous valuation were reported, so that unchanged circumstances are taken as a basis.

Division 1

No changes were reported to the Division 1 information from the previous evaluation, so unchanged ratios are used.

Division 2

No changes to the information on Division 2 compared with the previous evaluation were reported, so that unchanged ratios are taken as a basis.

Division 3

Obligations that may be recorded in the land register in section 3 are not taken into account in this appraisal. It is assumed that these will be deleted at the time of sale or compensated by reducing the purchase price.

Other rights and encumbrances

No changes in other rights and encumbrances were reported by the client compared to the previous valuation, so that an unchanged status is taken as a basis.

Property Description

No material changes to the appraised property were identified or reported by the client compared with the previous valuation, so that an unchanged condition is taken as a basis.

Building description

No material changes to the appraised property were identified or reported by the client compared to the previous appraisal, so that an unchanged condition is taken as a basis.

Outdoor facilities

Compared to the previous evaluation, no significant changes to the outdoor facilities were identified or communicated by the client, so that an unchanged condition is taken as a basis.

Structural condition

The office- and retail property is overall in an average state of construction and maintenance. Compared to the previous valuation, there is no significant change in the structural condition.

2.4 Location description

The subject of the valuation is located in the city of Kiel with a population of approx. 248,900 (as of 31.12.2023). The urban area extends over 118.65 square kilometres. Kiel therefore has a population density of 2,098 inhabitants per square kilometre. The city is the capital of Schleswig-Holstein. Kiel is divided into 30 districts.

population	Kiel, 248,873 inhabitants (as of 31.12.2023)
area	118.65 km ²
population density	2,098 inhabitants per km ²
population forecast	-0.7 % (Kiel, 2020-2040, Bertelsmann foundation)
unemployment rate, municipality	8.0 % (Kiel, as of November 2024)
unemployment rate, state	5.7 % (Schleswig-Holstein, as of November 2024)
unemployment rate, country	5.9 % (Deutschland, as of November 2024)
retail purchasing power index	106.16 (Kiel, as of 2023, IZ Research)
retail centrality index	117.48 (Kiel, as of 2023, IZ Research)

Kiel has good regional and supra-regional transport connections. The two federal motorways A 210 and A 215 lead from Kiel to the Rendsburg motorway junction and to the Bordesholm motorway junction of the A 7 (Flensburg-Hamburg). The B 76 and B 202 federal roads also run through the city. Kiel's central station has connections to regional and long-distance trains operated by Deutsche Bahn. Local public transport (ÖPNV) in the city is provided by city buses operated by Kieler Verkehrsgesellschaft (KVG) and by ferries operated by SFK. The nearest international airport is in Hamburg (Hamburg Airport).

The valuation property is located in the centre of Kiel in the district "Vorstadt". The district has approx. 1,700 inhabitants (as of 31.12.2023).

The surrounding of the property is characterised by a mix of buildings with commercial buildings (with office and retail spaces) on the one hand and residential buildings on the other hand. To the east are the Galeria department store and the shopping mall "Queer passage".

All facilities of a good public and private infrastructure are available in Kiel. There is a bus stop 200 m away and Kiel's main railway station is around 600 m away. The international airport Hamburg (HAM) can be reached via the A 215/A 7 in about 90 km.

Situation assessment

Overall, it is an average location for retail and office uses.

2.5 Market and revenue situation

Economic conditions

The current market situation is characterised in particular by higher interest rates as a result of high inflation, rising energy costs and uncertainties regarding the geopolitical situation in Ukraine and the Middle East.

German GDP fell by 0.3% in 2023. According to the Federal Statistical Office, the overall economic situation in Germany last year was characterised by persistently high prices at all levels of the economy, unfavourable financing conditions due to rising interest rates and lower demand from Germany and abroad. Inflation averaged 5.9% in 2023. Unemployment in Germany is currently still at a low level compared to other countries and averaged 5.9% in 2023. The Bundesbank is forecasting GDP growth of 0.3% in Germany in 2024 and 1.1% in 2025 (as at June 2024).

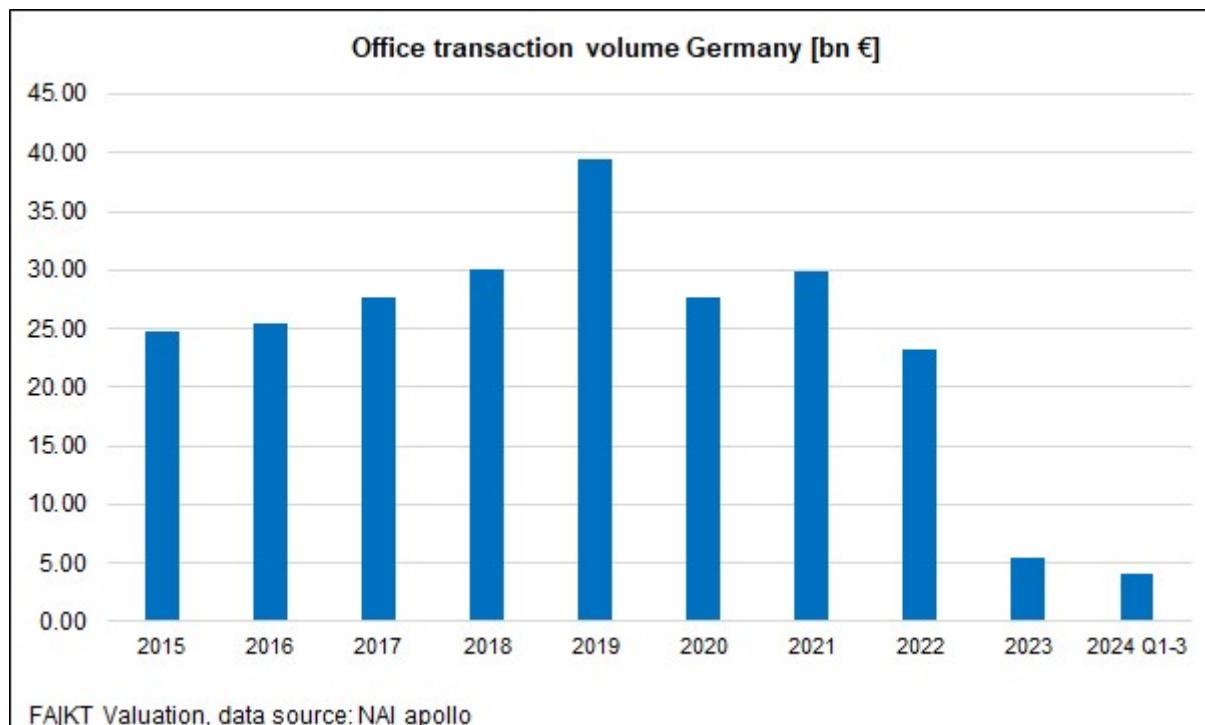

The general interest rate environment has changed significantly compared to the first half of 2022. Between July 2022 and September 2023, the ECB raised the key interest rate in ten steps from 0.00% to 4.50%. From June to December 2024, there were four cuts to 3.15%. Mortgage interest rates (10-year fixed rate) in Germany rose from 1.00% in January 2022 to 4.04% in December 2023. The current rate is at 3.23 % (source: www.interhyp.de, as of 1st December 2024).

Investment market

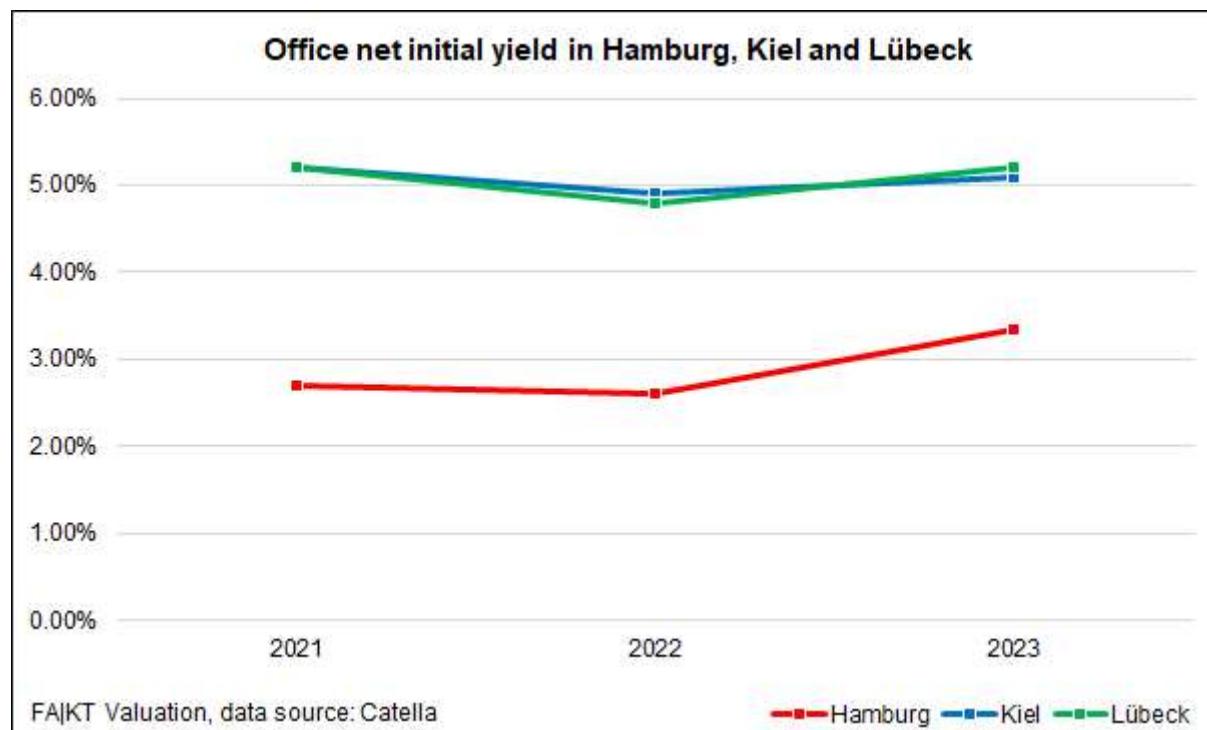

The turnaround in interest rates combined with higher construction costs and high inflation in 2022 led to restraint on the property investment market, the usual year-end rally failed to materialise and transaction volumes fell significantly in recent years. Only limited current market data is available for properties in commercial asset classes (e.g. office properties) and for smaller property markets such as in Schleswig-Holstein and Lower Saxony, meaning that the statistical significance is still low.

According to an analysis by the real estate consulting firm NAI apollo, the total transaction volume for office properties in Germany amounted to €5.52 bn in 2022. This corresponds to a decline of around 76% compared to the previous year (2022: €23.20 bn). In addition, the result is 79% below the average of the ten previous years (2013-2022: €26.20 bn). Individual transactions remained the dominant transaction type at 86.4 %. In terms of players, the buyer group of "open real estate funds / special funds" led the field in 2023 with a market share of 31.4 %, followed by "asset managers / fonds managers" with 17.0 %.

The recorded transaction volume for the first three quarters of 2024 totalled € 4.01 bn, which is in line with the very weak previous year (Q1-Q3 2023: €3.91 bn). Although the current result is 75.3 % below the average of the last five years (Q1-Q3 2019 to Q1-Q3 2023: €16.26 bn), it can be assumed that the office investment market has bottomed out.

Catella publishes a net initial yield of 5.10% for office properties in Kiel (as of Q1 2023).

According to the expert committee for property values in the city of Kiel, there are no purchases of office and commercial buildings with details of purchase price, usable space and rental income for 2022 and 2023.

Office market

As of the appraisal date, there is very little information on yields or multiples in the office submarket. The real estate market for office space in Schleswig-Holstein is mainly concentrated in the major cities of Kiel and Lübeck, as well as in the surrounding area of Hamburg. According to DZ HYP, Kiel, as the state capital and administrative and economic centre, has the largest office market with around 1.43 million m² of office space. Lübeck has approximately 850,000 m² of office space (as of 2018).

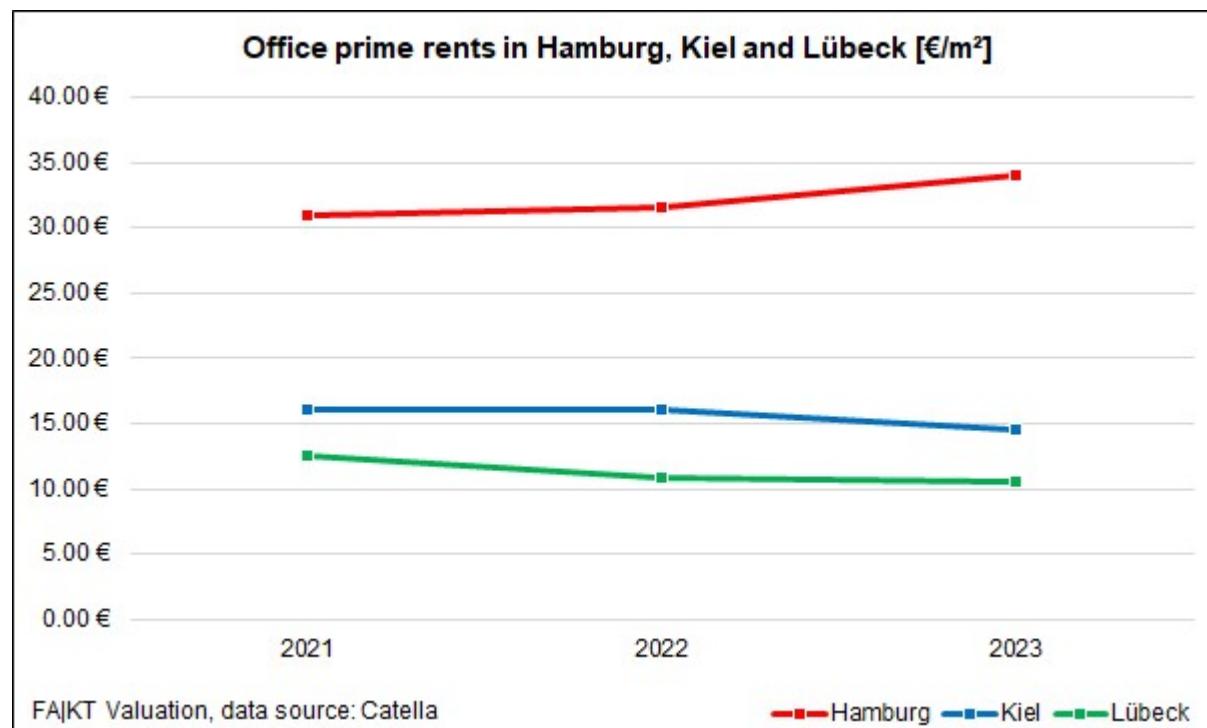

Office take-up has developed differently in the major centres of northern Germany in recent years. In Hamburg, take-up had risen sharply until the start of the COVID 19 pandemic, and relatively high take-up was also achieved in Bremen and Hanover. In the other office locations, however, market activity has been comparatively quiet.

Office rents

Rental prices for office space are published by market participants as follows:

source	description	price range	Ø price
DAVE market report 2024/2025	Kiel prime rent average rent	/ /	17.00 €/m ² 10.00 €/m ²

2.6 Valuation comments

Valuation model

Like the capitalized earnings method, the discounted cash flow (DCF) method is a valuation method based on the earning power of real estate. In contrast to the capitalized earnings method, there is no standardized model for determining market values using DCF. In the field of real estate economics, the DCF method is divided into a periodic consideration and a consideration after the end of this period. For the valuation object, a period of 10 years seems appropriate. In this valuation model, an equivalent return is used that takes into account inflation and growth during the period under consideration as well as the property and the current investment market, including the special characteristics of the property.

Assessment of the current rent

Commercial use	Sustainable rent estimated	Current payable rent	Area (m ²) Parking places	Yield / month (€)	Yield/year (€)
office/practice	11,87 €/sqm	11,87 €/sqm	4.283,83 sqm	50.845,58 €	610.146,96 €
retail	9,00 €/sqm	9,00 €/sqm	383,59 sqm	3.452,31 €	41.427,72 €
storage	4,66 €/sqm	4,66 €/sqm	161,93 sqm	755,30 €	9.063,60 €
parking space	57,07 €/pl	57,07 €/pl	83 pl	4.736,55 €	56.838,60 €
total			4.829,35 sqm	59.789,74 €	717.476,88 €

The valuation property is almost fully leased. One office unit (158,78 sqm) is vacant. The office/practice units are on average rented at 11,87 €/sqm. The retail space is rented at 9.00 €/sqm. and the storage space is rented at an average of 4.66 €/sqm. In addition, the parking spaces are rented at 57.07 €/pl.

With regard to market rents, the currently paid rent level is assessed as average.

In total, the gross profit currently paid amounts to **717.476,88 €**. After full occupancy and rental at market rates, the sustainable gross profit amounts to 745.225,66 €.

The detailed list of rents can be found in the appendix as a part of the DCF to this valuation report.

Capitalization rate

This yield is used to calculate the present value of the cash flows over a 10-year term. Based on the expected investment risk and the current market situation we assess a capitalization rate of 4.50%.

Discount rate

The discount rate is to be derived taking into account purchase cases on the market. The discount rate reflects all risks associated with the investment. It includes a premium for remaining risks that cannot be quantified otherwise. Since real estate is a long-term investment, the risk-free interest rate can be compared with long-term federal bonds or mortgage bonds. The interest premiums are property-related risk premiums for, for example, the property type, location, property quality and so on. As of the reporting date, the risk-free base rate is 2.20% and the object-specific risk surcharge is 4.50%, so the discount rate is 6.70%.

Plausibility check of results

Multipliers and capital values are published by market participants as follows:

source	description	multiplier/yield	capital value
GAA Kiel real estate market report 2024	Kiel office buildings	/	/
	commercial properties	/	550 – 1,600 €/m ² Ø 950 €/m ²
	mixed residential and commercial buildings north-west, 2023	19.2 – 22.2 Ø 20.4	/
	south-east, 2023	n. A. n. A.	/
DAVE market report 2024/2025	Kiel office and commercial buildings	11.00 – 17.00	/
Otto Stöben market report II/2024	Lübeck commercial properties including office/retail properties average good	Ø 12.50 Ø 17.00	/

The property-specific comparison factors, such as the gross income factor of 16.4 times the annual gross income (corresponding to a gross initial yield of 5.5% and a net initial yield of 6.1%) and the building factor of around 2,440 €/sqm of lettable space, are deemed appropriate in view of the property characteristics. The determined capitalized earnings value is judged to be appropriate and plausible for the location, the condition of the valuation property and the market level.

2.7 Market value

Section 194 of the German Building Code (BauGB) provides the basis for determining the market value. According to this, the market value is "determined by the price that could be obtained in the ordinary course of business at the time to which the determination relates in accordance with the legal circumstances and actual characteristics, the other properties and the location of the property or the other object of the valuation without taking into account unusual or personal circumstances".

Market value

The market value for the property with a rental apartment complex at the address D-23552 Kiel, Walkerdamm 1, Hopfenstraße 71, is determined as follows as of the valuation date:

Market value on the reporting date **12,200,000 €**

in words:

- twelve million two hundred thousand € -

This expert opinion was prepared independently and neutrally.

This expert determination of the market value of the object of valuation as of the valuation date is made to the best of our knowledge and on the basis of careful examination of the documents made available and the information provided.

The above expert opinion enjoys copyright protection, it is intended only for the client and only for the stated purpose. The Expert's assignment only creates rights for the contracting parties. Only the Client and the Expert may mutually assert rights arising from the Expert's order and the Expert's report.

Any contractual liability of the Expert vis-à-vis third parties, including by way of assignment, is expressly prohibited.

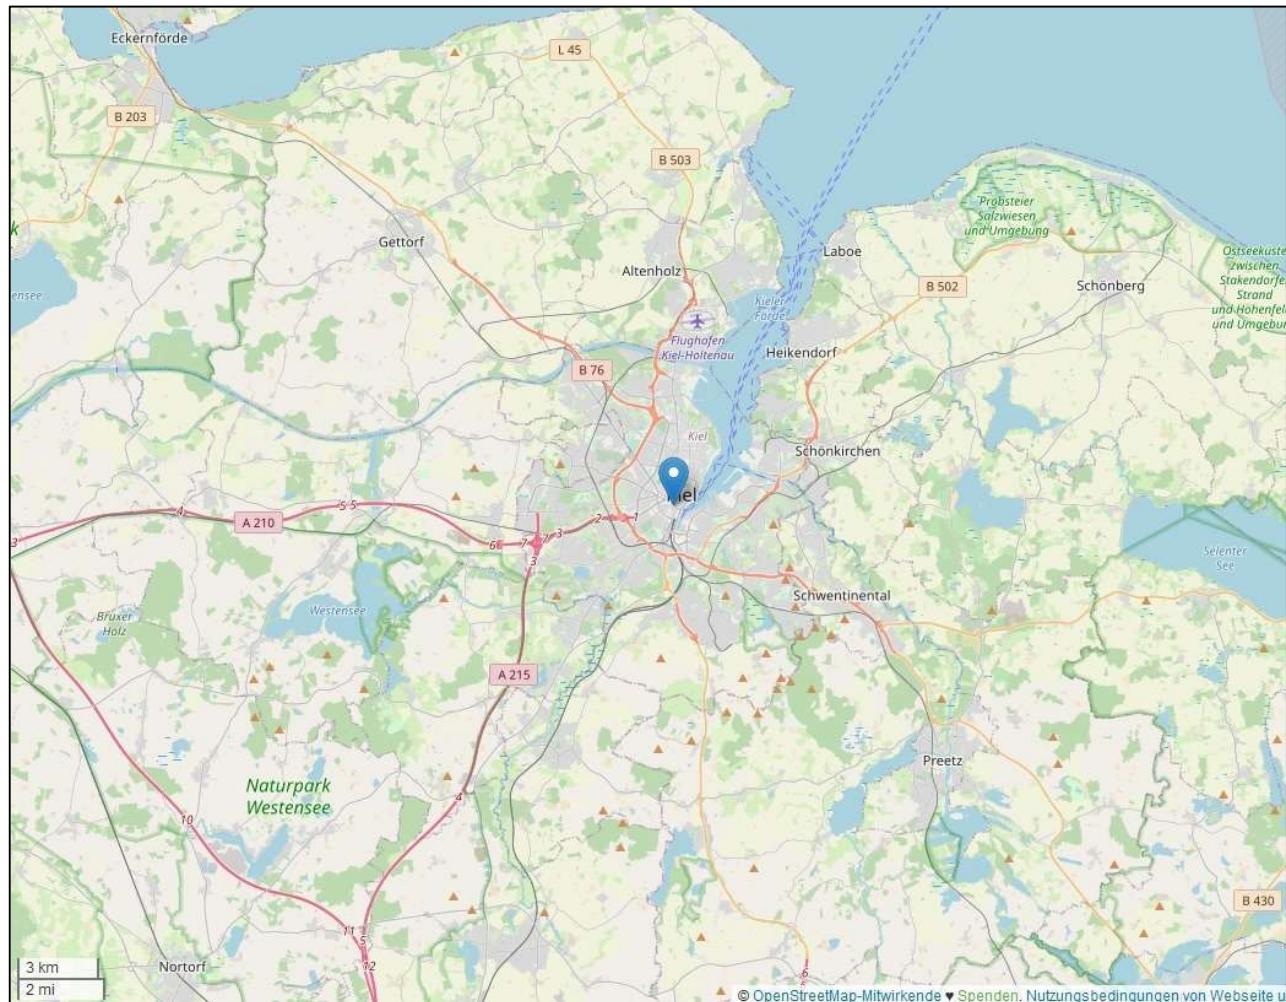

2.8 Changes compared to the last valuation

	Valuation Date 31.12.2023	Valuation Date 31.12.2024	Changes (%)	Changes (abs.)
